KEMBER E3PLANK

# NORTHERN OAK

## UNIQUE CONSTRUCTION

01.

### Hardwood core

Instead of plywood, our core is made of contiguous, cross-grain, solid hard wood, maximizing structural strength while mitigating expansion and contraction

02.

### Hardwood Siderails

Hardwood rails restrain end-to-end bowing while providing strong platform for nails and staples for installation

## ABOUT E3PLANK NORTHERN OAK

Offering the elegance of unique wide-plank, custom-made engineered wood floors that combine solid made-in-America quality with exquisite European finishing techniques

Character

**95%**

more stable than solid

**100%**

formaldehyde free from adhesive

**15%-65%**

humidity range tolerance

Superior and impeccable engineering

#### A:B:A Construction

- 100% hardwood components
- 4 mm wear layer, 11 mm core, 4 mm balancing layer

#### Hardwood Core

- Contiguous, cross grained, solid hardwood
- Cross grain restrains width expansion

#### Hardwood Rails

- Rails prevents end-to-end bowing
- Allows for better installation with nails and staples

#### Moisture Control

- All pieces glued with marine grade adhesive
- Moisture content gradient of every part is controlled prior to assembly
